# ***KEN-A-VISION PRESENTS...***

## **7890UM Megapixel Digital Vision Viewer™**

Product presentation with 7890UM Megapixel Digital Vision Viewer™ and laptop computer.

The Megapixel Vision Viewer 7890UM has a high resolution camera with a fast USB 2.0 connection to your computer or laptop. This camera can focus on documents, moving objects, demonstrations, or even the presenter. Plus, it works great with Interactive White Boards. The Vision Viewer is ergonomically designed with a swivel head that houses a 6mm glass lens so you can capture superior quality images showing details that you might otherwise miss. Included is Applied Vision Software so you can capture images, record movies, set up time-lapse, flip, mirror, rotate, adjust brightness and contrast, and much more.
